Stolen Boat Recovered

The Crawford County Sheriff Dept. recovered a \$2,800 boat, motor, and trailer outfit stolen from Marine City. Deputies found the 16-foot Hydrasport speed boat parked behind a cabin in Grayling Township on November 14.

Rare Travelogue December 1st

On Thursday evening, December 1, the Crawford AuSable Community School Program will present their next exciting travelogue. This will be the third film of the current Travel and Adventure series sponsored by that organization. Travelogue time has been set at 7:30 p.m. with doors opening at 6:45. The travelogue will be presented in the Grayling High School Auditorium.

The December 1 travelogue promises to be a very interesting one. To begin with, the subject is India, one of the least photographed countries of the world. One of the reasons for India not being widely viewed by travelogue audiences is the fact that the best time to photograph India is during the months of December, January and February, a time when most travelogue artists are involved with showing their films. Lee and Lily Cavanagh however met the challenge and took one lecture season off and dedicated their time to the country of India. During that 3 month time, they were able to capture on film that fascinating land about which little is known, and they will be here in Grayling to share their experience with you on December 1. Don't miss this one. Tickets will be available at the door.

Home Extension Annual Xmas Tea

The Home Extension will hold their Annual Christmas Tea on Monday, December 5 at the Masonic Hall in Grayling with the Lovells Extension Group hosting the affair. The lunch will be served by the Eastern Stars and the cost will be \$3.75. Registration will start at 11:00 a.m. and lunch will be served at 12:00 Noon.

There will be a program by Laura Schans from Laura's Bath Shoppe, who will give a demonstration on flower arrangements. There will be several door prizes.

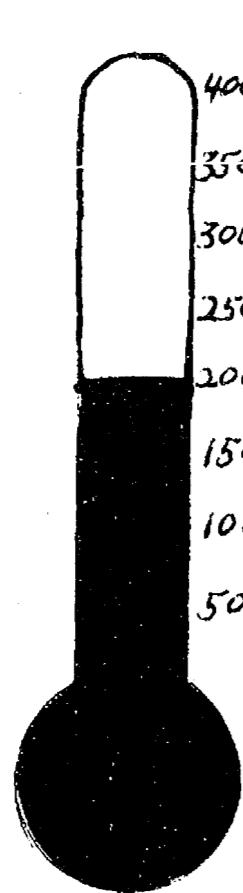

The tea is open to the public, but please call Velda Marshall at 348-7165 for reservations by November 30.

Chamber Campaign In Fall Swing

The November membership drive for new members of the Grayling Regional Chamber of Commerce is now in full swing. This years campaign, which ends December 10th, has brought the membership roster to 193 as evidenced by the membership thermometer in front of the new Chamber building in the city park.

All members with dues paid by December 10th will be included in the directory of business of the upcoming Chamber brochure and will also be eligible for advertising space in the new brochure which is to be larger and more colorful and informative than previous years.

BUCK POLE SUCCESS—Hunters filled the Grayling Buck Pole the first two days of rifle season hanging 38 bucks.

Rifle Season Rated 'Fair'

By Jon Thompson

The opening week of rifle deer-hunting season was rated as fair but not as good as expected, said DNR wildlife biologist Ray Perez.

"Success was light," Perez said. "There were only five deer taken in 19 hunting camps I checked on the first day. After three days most camps had only one to two deer. In previous years camps averaged about three to four deer here."

Perez checked 15 deer in the field and counted 80 deer sighted by hunters he talked to on opening day Tuesday.

"Hunters were seeing a lot of deer, but they were mostly does and fawns just like we expected," he said.

Perez said there was good hunting pressure in the Mason Tract and in southeast Kalkaska. On Opening Day quite a few local hunters were in the ranges near Lovells, but other than those areas hunting pressure was spotty.

Perez said a few nice racks were reported taken from the swamp area near Camp Grayling. Overall, he said the weight and racks of deer weren't as good as expected after a mild winter.

"A lot of the one and a half year olds taken this year were about 100 pounds field dressed," he said. "Usually the year and a half old deer average about 120-130 pounds field dressed here."

"Their antler growth wasn't as good as expected either. Even some of the older bucks two and a half to three and a half years old didn't have racks that big."

Some hunters told Perez there weren't enough hunters in the woods this season to push deer around. Perez said many of the hunting camps had left by Friday and the northbound traffic Friday night was not as heavy as expected.

One thing that did help hunters this year was a late rutting season. Perez said rutting season was a week to 10 days later this year and quite a few deer were moving around for hunters.

"A lot of hunters told me they saw does and bucks together," he said.

Many does had triplets or twins with them and Perez said if the winter is easy on them there could be good hunting here in the future. Most of Crawford County was closed to antlerless hunting this year and Perez said hunting pressure was light in the one doe permit area north of County Road 612 and east of I-75.

Rain drove many hunters inside during the weekend and warm temperatures are allowing deer to stay in one area feeding on grass, acorns, and ground cover. Rifle hunting season ends Dec. 1.

4 Hunter Assaults Reported

Four separate assaults on hunters were reported Thursday, November 17, in Grayling and Lovells Townships.

Near Lovells Road, two hunters shot at the feet of each other in a dispute that was later settled.

In Grayling Township, a local hunter was hit and kicked and two hunters stole the buck he had just shot. Another hunter was threatened with a handgun and told to get off private property. At the south end of Kneff Lake four hunters carried on a fight that began the night before in a bar.

In Beaver Creek Twp. a malicious destruction complaint was filed after a 12-gauge shotgun slug was found in a trailer.

In other police news, Patrick Callahan, 32, Bridgit Callahan, 3, and Shawn Callahan, 1, were all taken to Mercy Hospital following a car accident at Ionia and Chestnut Street intersection Thursday, Nov. 17, at 11:20 a.m. Cynthia Jacklyn, 29, was not hurt in the accident, according to a Grayling City Police report.

GHS Players Piece Together Fine Mystery-Play Performance

By Jon Thompson

Three murders, screams in the nights, and a vengeful ghost didn't deter the GHS Players from successfully opening their 1983-84 season Thursday, Friday, and Saturday nights.

"The Mystery of the Black Abbot" was a fast-paced and cryptic mystery-play, giving the audience only bits of information mixed in with stabbings, gunshots, and disappearing persons.

Leading much of the action were Damon Thayer and Paul Gust. Thayer, a senior with a lot of stage experience, played the funny yet serious role for all it was worth.

role in three years on the GHS stage, portrayed Lord Alford, a man frightened of death. Thayer was able to give the audience an understanding of Alford's preference for finding an exiler of life instead of hidden treasure, and he acted well in dramatic scenes.

Gust portrayed the most memorable character in the play - a big-jawed inspector from Scotland Yard named Monkey Puttler. Gust, a senior with a lot of stage experience, played the funny yet serious role for all it was worth.

Junior Brian Crosby was also laudable in his first major role on the GHS stage. He was able to effectively show the anger and frustra-

tion of Lord Alford's half-brother in a tough, somewhat villainous role.

From the moment Troy Haag walked on stage he presented a good image of a gambling Englishman. It was another fine character portrayal by the senior GHS student who starred in "Heaven Can Wait" last year.

Kathy Allen, only a sophomore, was very good in a difficult role of a caring psychiatrist. Another sophomore, Kevin Reynolds, did equally well handling funny lines as a shrewd consultant.

Junior Brenda Prause, who played a likeable maid, had perhaps the best English accent among a crew which See "GHS Players" on P. 18

Buck Pole Scores Big

By Jon Thompson

Grayling's Buck Pole was scored as a hit for the first two days of rifle deer-hunting season as 38 bucks were hung and 37 prizes handed out.

Visitors to the buck pole rated Grayling's and Mancelona's buck poles as two of the best in northern Michigan for bucks displayed and hunter interest.

Gail Madsen, of Skip's Sport Shop, the site of this year's buck pole, said there were nine bucks hanging on the pole this year by the same time only one buck had been brought into the buck pole last year.

Fifty dollar savings bonds were awarded to the first ten successful hunters each day and ten additional \$50 savings bonds were given away to the first successful hunter, first successful woman hunter, oldest successful hunter, youngest successful hunter, and heaviest buck brought in each day. A Ruger 77 rifle 30-06 was also given away to the hunter bagging the deer with the largest rack according to a modified Boone and Crockett scoring system.

Gail Madsen said the two days went well for the chamber of commerce orange coat round-up as more than 400 orange coat round-up buttons were sold to help pay for the prizes. She said next year the orange coat committee wants to expand prizes to include the first 20 bucks each day. A lot of hunters didn't hang their bucks this year, she said, because they came in after the first ten and didn't have a chance at the special categories.

Chamber of Commerce raffle winners at the Buck Pole were Tim Lobsinger, of Grayling, winning a Redfield Tracker scope, Jim Apfel, of Gaylord, binoculars, and Treva McClanahan, of Grayling, a scoped rifle case. In the Lions Club drawing, A.T. Davis, of Grayling, won a Remington .308 rifle, Ron Kammer, of Grayling, won binoculars, and Pat Hall, of Jenison, won a hunting knife.

Mercy Hospital Auxiliary News

Assisting with diabetes screening annually and with the twice monthly blood pressure clinics has involved us more in the hospital services to the public. Our latest pledge is to buy two electric beds with two tables - one bedside and one over the bed - each year. As Mercy Hospital and our community grow the auxiliary must also grow.

We welcome new members - adult women and men - who want to give of themselves. It is most rewarding. We meet each month - the second Thursday - in the basement of the County Building.

The next meeting will be our Christmas pot-luck luncheon. On Dec. 8 at Noon we will have lunch together - it is very important that everyone attending bring their own table service and serving utensils for the food - a dish pass - they bring. If you have put off joining the auxiliary - don't put it off any longer, come to our Dec. 8th luncheon. For further information call 348-8207.

If you hit a parked car, leave your name and address under the windshield wiper. If you don't, you can be cited as a hit-and-run driver.

According to statistics, crimes of personal violence occur more frequently during the summer months, while robberies peak in the months of November and December.

Your boss does not have the right to make you take a lie detector test. If you refuse, however, he may have the right to fire you.

A search warrant does not give blanket authority to an officer; a search must conform to the nature of the property being searched for. For instance, dresser or desk drawers cannot be searched if the warrant was obtained to look for stolen television sets.

To be sure that the house you are buying is free of recorded liens, there should be a TITLE SEARCH, an investigation of all public records pertaining to the property.

The New Dream

By Rev. Thomas A. Bruno

Minister of
The Congregational Church
Roscommon

When he came down from the mountain, they (his disciples) were having quite a heated discussion. There was a great crowd there and the scribes and others were arguing with them.

The immediate problem was that a father had brought his afflicted son to the disciples to be healed and the disciples found themselves powerless to help effect the healing of the boy.

When Jesus questioned the man about the boy, his father said, "...if you can do anything, have pity on us and help us."

Jesus seldom had such an immediate reply, "If YOU CAN! All things are possible to him who believes."

If you can!! Let us not criticize the father, for often we are found with the same question and doubt. But Jesus was surprised since He knew the power of God that anyone would use an IF when talking about the great power of God. How differently he came than the centurion who simply said, "Lord, say the word and I know my servant will be healed."

However I like this father who came to Jesus, he was honest. He said, "I believe; help my unbelief!" That was honest. There was no pretense in this man's faith - he was reaching out and he wanted to believe, but yet he hesitated in doubt. For every inch of faith, sometimes there are two inches of doubt.

The beauty of Jesus is that he can take a little faith and make it into a greater faith. Also he will never quench even a tiny spark, no matter how small. He will kindle it and make it grow.

Have you been honest with God? Why not ask him to "Change your unbelief into belief."

By the way, Jesus healed the boy just as he can heal you.

Tighter Controls Offered Against False Insurance Claims

Warren M. Hoyt, Executive Director, MPA

Legislation strengthening enforcement efforts against false medical insurance claims, which the sponsor estimated costs the state approximately \$100 million a year in false Medicaid and Medicare claims alone, is being prepared for formal introduction.

Representative Jeffrey Padden (D-Wyandotte) said the bills will strengthen enforcement by specifying that medical bills - including computer-printed bills - would be prima facie evidence of intent to commit fraud and permitting the attorney general's office to get subpoenas to acquire documents used by health care professionals.

Attorney General Frank Kelley and William Smith, director of corporate and financial investigations for Blue Cross/Blue Shield of Michigan, also appeared with Padden to support the bills.

Padden said his estimate of \$100 million lost in Medicaid and Medicare funding was "conservative."

There are no actual statistics on the extent of medical insurance fraud, but the crimes cannot be considered victimless, he added.

Ultimately every insurance subscriber pays to recoup the difference in the form of higher premiums and every taxpayer helps recover the cost of unlawfully submitted Medicaid expenditures," Padden said.

Both Kelley and Smith said law enforcement officials need help in pursuing fraudulent claims which come from "the whole gamut of every kind of health care professional" including physicians, chiropractors, osteopaths, pharmacists and testing laboratories.

Kelley said in past cases, pro-

fessionals have been able to protect themselves by claiming that fraudulent claims were filed without their knowledge by billing clerks or other personnel.

Smith said some prosecutions have been successful using federal laws, such as the mail fraud act, but stronger state measures are needed to pursue fraudulent claims.

The two measures set a maximum penalty for fraudulent claims of four years in prison and fines of \$50,000.

The maximum penalty is already prescribed in current Medicaid law, but the private insurance company fraud bill creates a new act.

The private insurance company bill also sets penalties for conspiracy to commit fraud at 10 years in prison and fines of \$50,000.

Kelley said the sections of the legislation permitting the state to use bills, including computer tapes and computer printed bills, as prima facie evidence of fraud will help show that "in fact, there was intent to defraud," and prevent defendants from claiming they had no part in fraudulent action.

Padden insisted the two bills were not designed as a "witch hunt" or to go after health care professional who make close calls in ordering medical examinations or tests.

The bills are designed to go after professionals who endanger patients by subjecting them to constant tests, such as x-rays, without cause, bill the state or insurance companies for tests that are never performed, or who actually pay patients to come in for an alleged examination and then file claims though nothing may be wrong with the patient, Padden explained.

STUDENTS OF THE MONTH—Grayling Middle School Principal Dale Nicholas congratulates Melanie Ojala, daughter of Mr. and Mrs. Clarence Ojala, Mike VanHill, son of Mr. and Mrs. David VanHill, and Jessie Riness, son of Mr. and Mrs. Don Riness, for being selected students of the month at GHS.

What's So Special?

By: Sharon Prisipsky

It looked like the end of Jeff's high school education. Although he was only a sophomore, not yet sixteen years old, he was about to be brought before the school board. The administration was recommending that he be expelled.

The trouble hadn't started recently. In elementary school, Jeff was often in trouble on the playground. In middle school, he was frequently suspended for fighting, smoking, refusing to obey school rules or being generally disruptive in class. Teachers just couldn't figure Jeff out. He was certainly bright enough to do the work. Yet, he used more energy getting into trouble than it would take to cooperate. He seemed determined to fail.

Before Jeff could be expelled, the school code required that he be evaluated to find out if he had an education handicap. Jeff met with the school psychologist twice. The school social worker talked with Jeff, his teachers and his family. A teacher consultant observed him in his classes. All of these people then met with the principal, the counselor and parents to discuss Jeff's troubles in school and the results of the evaluations. This was called an Individual Education Planning Committee (I.E.P.C.).

The committee listened to the reports and determined that Jeff was emotionally impaired. That meant that his school behavior had been disruptive to his own learning and to the learning of other students. His behavior was a result of conflict Jeff was experiencing at home and in his neighborhood. Jeff was experiencing general unhappiness and depression. Jeff was not retarded, but was unable to behave satisfactorily in the school.

As a result of the I.E.P. Committee meeting, Jeff was placed in a program with a teacher specially trained to work with emotionally handicapped students. The program was very structured. Privileges had to be earned. There was little freedom to participate in school activities at first. But, as he learned to control his behavior and comply with rules and regulations, rewards were given. Both Jeff and his parents met regularly with the school social worker to discuss his progress. Later, Jeff was able to enroll in an Individual Vocational Training Program. Here, he was supervised by a special vocational consultant and

Local Hunter Bags Balloon On Opening Day

While deer hunting in his blind in the Deward area on November 15th, Thomas Campeau of Frederic Township discovered a helium-filled green balloon with a message attached. It had been released on November 10th from the Dogwood School District 163 in Park Forest, Illinois by student John McDonald. The message stated that they were releasing the balloons in celebration of the one hundred years of public education in Illinois and to write them as to where it had landed.

Campeau said it was not quite daylight when the movement of the balloon, by the wind, caught his eye. At first he could not believe it and was surprised to see a balloon in the woods. Then he remembered seeing on the T.V. news about the school releasing the balloons and went to retrieve it.

Campeau has written to the student, John McDonald, and sent him literature from our area and the story on finding his balloon which has traveled about three hundred miles.

Campeau did not bag any deer that day, but said the balloon and the story behind it will be the best trophy he could have. A real deer story to remember.

Doodles From The Tall Timber

Wendell L. Hoover
Park Interpreter

On the rivers around this neck of the woods there is still evidence of the dams built to provide extra water needed for the spring river drive. A river full of pine logs requires a lot of water to keep everything moving.

There were several kinds of dams, including the flash dam, the horse dam, the run dam, the splash dam, the squirt dam, and the roll dam.

There were big ones and small ones, cheap ones and costly ones. Acquainted as I am with old-time logging, most of the dams mentioned above are not familiar.

The driving dam was usually of large and solid timbers squared with a broadaxe. Driving dams were so-called because they were equipped with a plank gate in the middle, which was raised vertically to let logs be driven through. This operation was called sluicing.

The raising of a sluice gate after it had remained in one position for some months no doubt required a lot of muscle, weight and the usual colorful but unprintable language.

However, when a dam was in frequent use, the gate was kept greased so it would slide up and down easily. A roll dam was a smaller affair without gates. Such a dam was built without gates where a sufficient head of water could be obtained in the swell of the river's surface.

From Our Corner...

WE GIVE Thanks

Thanksgiving is a time for prayerful gratitude... for the love of one's family, food to eat, and freedom to enjoy all this of life.

Hey! We've been moved way back here in case you have been looking for us...Laurine moved us out of our favorite spot this week...we really don't mind, especially when a full page ad takes over our space...

How about those Wolverines Saturday...the ol' fella was smiling blue Sunday morning along with three other Go Blue fans we know here in Grayling, namely, Bob at the bank, Freddie at the Post Office and Judge Emil...now all we have to do is convince Bo that Bowl games are to be won just like those against our rival Ohio Buckeyes, and then we won't have to wear our Go Blue cap backwards after the game with Auburn in the Sugar Bowl January 2nd in New Orleans...Bo said after the game Saturday he likes seafood and should be able to get his fill in the gulf city...we hope he likes sweets and gets his fill of sugar...would be sweet revenge for all those losses in other bowl games...

With our early deadline this week due to Thanksgiving on Thursday, this turkey has to be done Sunday afternoon instead of our regular Monday evening...no pun intended...

A note for posterity...Crawford County had one of its biggest yields of deer the first two days of the season since, I believe we have been here...another note for posterity...this weekend has been terrible for hunting, rained just about all day Saturday and Sunday with temperatures of 40 to 50...

We have reprinted the following for many years...it is still suited for this year and will be as long as this great nation remains free...

Thanksgiving — '83

"Rest and be thankful." How far modern man has strayed from that wise old Scottish counsel! Too often we scurry about our daily affairs, complaining of traffic, the state of the Union, food prices and the like — never bothering to count our blessings. This Thanksgiving Day, November 24, would be an excellent time to reflect upon the true meaning of life in America and, in so doing, come to a real appreciation of our good fortune.

Thanksgiving is more than a unique American celebration to be observed with parades, roast turkey and speeches. It honors the beginnings of the U.S. and our rich legacy of freedom, won by the blood and sacrifices of the first American settlers and others who came before us. How can anyone breathe the sweet air of freedom and not dedicate themselves to the democratic ideals which make life worth living and upon which this nation was founded? That each of us should be alive and living in the greatest country on Earth is cause enough to give thanks every day of the year. We should never be too busy to "Rest and be thankful."

Have a nice Thanksgiving...we will bid goodnight to T.J., Stefany and Amber, and to all, we hope your turkey day will be just like you planned it...

Thanks to you...
it works...

A record number of Michigan winter sports centers will be in operation during the 1960-61 skiing season with three new ski areas boasting the state total to 74.

Pre-season estimates by the state tourist council indicate some 165,000 skiers will make an average of three trips each to Michigan ski centers this winter - if snowfall conditions are as good as last year. This would be an increase of about 10% over the number of skiers on Michigan slopes last winter.

This cold weather sport has been booming throughout the state in recent years, particularly since 1953 when a total of 38 ski centers catered to about 65,000 skiers. In seven years the number of ski areas has almost doubled and new members have swelled the growing ranks of ski enthusiasts.

The Bible Speaks

From Calvary Baptist Church

DOES YOUR FAITH MATTER?

Sincerity and personal beliefs have become the sacred test of valid faith in our humanistic society. We have equated religious freedom with religious neutrality. In spite of Satan worship, the Jim Jones type cults, and the Communism evident in the National and World Council of Churches, we still find the average person on the street with few personal convictions about what is really right and wrong with any religious beliefs.

Faith in the person of Jesus Christ as very God, His work as our savior being our only hope of salvation, and His word, the Bible, being our only infallible authority in all spiritual matters, is being gradually rejected around the world. Fewer people really obey His person, trust fully in His work, and believe all of His word.

Since both His person and His work are revealed in His Word, our relationship to His Word gives us insight into the validity of our faith. Most professing Christians claim to believe the Bible. They realize you cannot call Jesus Christ both Lord and liar and remain consistent. However, their knowledge and acceptance of Bible truth betrays their personal faith. You have heard people say, "Yes, I know what the Bible says, but I believe..."

A neutral philosophy toward religion has resulted in a rejection of all absolute truth as revealed in the Bible. By treating the Bible as just another book filled with errors, men have rendered the Bible dead, and have claimed to distill from its fermented or decomposed message a few of their choice words of human hope. To these people the Bible says "love", "unity", "brotherhood" and "peace". They reject all Bible revelation about God's wrath. They reject the fall of Adam and Eve in the garden. They

Carl and Rose Hatfield spent Saturday, November 12, in Caro, Michigan, teaching a Basket-making Workshop to 14 new weavers. The workshop was conducted through the Community Education Office of the Caro High School. A second workshop with more advanced techniques will be taught by the Hatfields in Caro in December.

Mark will be leaving on December 28 for a tour of duty in Germany. Candy and their daughter will divide their time between Grayling at the Col. David Hanson home and her parents in Detroit until she can join her husband in Germany.

November 16, 1983

Dear Sir:

The evening of the above date, my husband came home with a memo from our board of commissioners re: "voluntary" wage reductions for elected officials, appointed officials and salaried personnel equivalent to one day's pay per payroll period for one year, (hourly wage persons not affected). Now, you have got to be kidding me!

"We", and I mean "we", have given to the county for the last 18 years in rather low wages. My husband has given more "free" hours to the county than I would care to recall and count for you. Years of buying his own equipment (guns, handcuffs, cameras, etc.) before the county finally had some monies to provide routine equipment.

Years of working all holidays, weekends, calls at all hours, and it isn't considered the safest profession to be in. Yes, I know, he chose this profession, but after this length of service, why be asked to "volunteer" for less pay!

My husband, by county regulations, may not speak out against any elected county official to express his opinion but as I am not employed by the county and as a wife who has benefited all these years from county wages, I am!

I feel it is an insult to ask persons who have the most responsibility in their job areas to take a pay cut, especially with the wage scale, \$17,000-\$18,000 per year, which isn't exactly high hog wages. We are at the time of our life of preparing for retirement.

We have raised five children and now need time to save for our future. How do we accomplish this without money? Everyone is aware, as I stated before, that wages in any job area in this part of our state are lower due to the "clean air syndrome" of the north country, so give me a break!

Don't ask us to "volunteer" for anything less. We don't wish to be on welfare when we retire.

Rare Rabbits

The rare volcano rabbit is found only on the slopes of volcanoes near Mexico City. The animals feed on grass and other small plants, and hide from humans and predators by burrowing among rocks. Scientists believe that only a few thousand volcano rabbits exist today.

To The Editor,
Mr. Nowak, you misinterpreted my vote at a recent Commissioners' meeting concerning the K-Mart's intent of establishing a store in Grayling.

My vote indicated it was my opinion that the Agree Construction Company did not need tax-free bonds to assist in their construction of the K-Mart building. The construction company only needed a building permit to proceed with same. The construction company would then secure financing, and then enter into a lease agreement with the K-Mart Corporation.

My vote was "Yes" to K-Mart, but not with "subsidy". If given subsidy, K-Mart could lease at below competitive rates. In addition, the Federal Government and State of Michigan would be denied revenues on tax free bonds.

As a Commissioner I felt it was unfair to submit Agree's Construction Company's proposal to the Economic Development Corporation.

Why should K-Mart end up with a favorable rental? This would be unfair competition to local sport shops, apparel stores, hardware stores, drug stores, auto-part stores, jewelry stores, variety stores and others in competition with K-Mart merchandise. Certainly K-Mart, a solid company, doesn't need a subsidy denied other retailers in the Grayling area.

My vote, Mr. Nowak, was "Yes" to K-Mart, but not with a subsidy. I don't want to give anyone an unfair advantage over the local businessmen in the Grayling community. Apparently, Mr. Nowak, you do.

In closing, I state I have no interest in any retail establishment in this community.

Crawford AuSable Parents Group

The Crawford AuSable Parents Group invites all parents to attend a special evening program featuring our school principals on Tuesday, November 29 from 7:30 to 9:00 p.m. at the County Courthouse.

Carl Naghtin, Dale Nicholas, Pat Nunn, and Dave Hawkins have accepted an invitation to let parents "Ask the Principal". Each administrator will present the one area of school life they consider to be the strongest in their building. They will also inform us about one area in their building they are currently working to improve.

Following these brief presentations, parents will have the opportunity to address written questions to the principals regarding their programs. First priority will be given to questions related to the presentations made that evening. If time permits, questions on other topics of interest will be addressed.

Mrs. Sandi Davis will serve as moderator for the evening. She will receive the written questions and direct them to the appropriate administrator. Questions regarding individual staff members or students will not be addressed. These should be taken privately to the principal of the building in question.

Information about the Crawford AuSable Parents Group will be provided following the presentations and question period. Interested parents may attend a brief meeting of the Parents Group following the program.

The Crawford AuSable Parents Group has identified improved communication between home and school as one of its prime goals. This program is the first attempt at reaching that goal. We certainly hope you will attend.

JAZZERCISE CLASS—Grayling Elementary Physical Education classes had a special guest this week. Mrs. Yatch, Physical Education teacher, invited her Jazercise Instructor, Mrs. Kim Russo-Smith, to do two 45 minute Jazercise classes, one with all the 4th grade classes and one with the 2nd graders. Jazercise is fun and also provides an excellent cardio-vascular exercise program.

BEAR DAY—On October 28, 1983, Mrs. Bovee's fifth grade classroom had a fun day called Bear Day. The girls wore pj's with freckles on their faces. The reason we did this is because of Teddy Roosevelt's birthday. Did you know he refused to shoot a cub? Some of the grandparents came in to look at the bears. There was a lady and her name was Liz Millikin; she made a bear cake. The cake she made was brown and white and tasted GREAT! We read to the other classes. They also went around the classroom and saw the bears. There was a total of one hundred forty-two bears. That did not include a thimble, a cup, pictures, stickers, and napkins. We also brought in jewelry. The cooks judged the bears. They put ribbons on the smallest, biggest, cutest, ugliest, and the fuzziest bears. The classes, including the teachers, even got to walk on the ugliest bear which was a rug. By Shannon Phillips, 5th grade. Pictured are two fifth grade students reading bear stories to the younger students.

This would require permission from the M.D.O.T. to erect them in the state road right-of-way.

Mr. Schreiner stated that Mr. Morford had requested that Mr. Goodale wait until the City Manager could be present and that Mr. Goodale agreed. La Leche League Meeting Notice

By Fay Bovee

Mrs. Margaret Avis was feted at a bon voyage party by a few close friends at the home of Clarence and Mary Ojala on Thursday, November 10. She is leaving on November 22 to visit briefly one son, Dick Avis, in Houston, Texas, and then she will fly to South Africa to spend several months with a daughter and husband, Dr. and Mrs. Bruce Armstrong. Gifts for Mrs. Avis were some very practical things that she could take with her to the mission where her family is. Another son, George Avis of Washington state was also here and entertainment for the evening were slides of Washington which he had taken.

La Leche League believes that mother's milk is the best food for baby; more importantly, that breastfeeding gives the baby the best start in living.

The discussion will include suggestions about nutrition for nursing mothers and their families; starting the baby on solid food; and information about weaning the breastfed baby.

Any interested woman is welcome to attend. Expectant mothers are encouraged to attend the series of meetings before the baby arrives. Babies are always welcome. For further information, or for breastfeeding help, call Carolyn Crist at 275-8431.

Chamber Chatter

By Joyce Kolka

The Orange Coat Roundup was a huge success with 13 bucks hung on the pole by 10:30 a.m. on the opening day. Over 20 deer were entered and hung on November 15 with many entered in the second day of the contest.

The committee working on the roundup should be congratulated on an excellent job of revitalizing the program and publicizing the event. The committee was headed by Skip Madsen of Skip's Sport Shop. Working with him were Larry Raymond, R & H Sports; Dean Molnar, McDonald's of Grayling; John Alef II, Grayling State Bank and Don Geiss, Grayling Regional Chamber of Commerce. Thanks also to all of the businesses that helped to make it a big success.

It will be a good question now as to whether the snow season sports events or Christmas Holiday programs will take the spotlight in attracting people to the area. City DPW personnel are decorating the streets and businesses are beginning to display the Christmas finery.

On tap too for the Holiday season is the first Christmas Walk on December 18. Six homes and the Crawford County Historical Society will be specially decorated for the walk. Each of the homes will be featured in a ticket/brochure by a reproduction of the residence.

The chamber membership drive is in full swing. Norma Naour and Curt Jansen will be calling on businesses who have not signed up this year and the other board members will be contacting non-members. Walt Nowak who has been in charge of Membership Development has had surgery recently on his knee and has asked to be relieved of the responsibility. We certainly hope Walt has a speedy recovery.

New promotional material will be produced in the near future as a result of a decision made recently by the Chamber Board of Directors. A booklet with a color map and many color pictures of the area will be the handout to visitors and potential guests at sport shows. The piece will also be used in answer to written inquiries as well as brochures of individual businesses.

A grand opening was held last week on behalf of the new owners of San-Sheri Campground-Restaurant and Party Store. Cindy and Brian Peacock, welcome local people for dining and are planning to have the camping facility open year around. The couple are originally from the Upper Peninsula have, as a result, a good deal of experience in outdoor recreation.

The Crawford County Snowmobile Council asked that we remind all persons and businesses interested in snowmobiling that a meeting will be held Monday evening, November 28 at the Grayling Holiday Inn. They pointed out that it is essential to have a large turnout in order to elect officers and make plans for the coming year.

Promotional plans for this winter include supplying brochures to the East Michigan Tourist Association for handouts to Sport and Boat Shows in Chicago, Columbus, Cincinnati, Indianapolis and Cleveland. The chamber will supply the EMTA with 4,000 of the blue cover Grayling/Crawford County booklets.

CHURCH DIRECTORY

To Be Thankful

It used to be that a picture like this could only mean harvest time—big orange pumpkins, shiny red apples, colorful stalks of Indian corn. And, of course, a turkey in the pantry.

But what about today? You can buy apples almost any time. Pumpkins are available in a can twelve months of the year. And you can buy a frozen turkey as easily in July as in November.

We Americans take for granted what was a real treat in our parent's time. But in the midst of this material plenty, there is danger of spiritual famine. To keep the proper perspective, to appreciate the gifts of life to the fullest we need the Church and the story it has to tell us.

Maybe you can't be a pioneer—a Pilgrim. But you can follow your forefathers' example at Plymouth that first November. You can utter genuine thanks in the church of your choice.

New Phone Directory Out

The newest version of one of the world's most frequently referred to books — the telephone directory — is on its way to General Telephone customers in Gaylord, Grayling, Higgins Lake, Houghton Lake, Roscommon and Vanderbilt according to Bob Kowalski, division manager for the company.

Except for the cover which features a colorful fall stream scene, customers will find few changes.

Helpful Information

Emergency number listings, dialing instructions, telephone company service numbers, helpful instructions for the deaf, business office numbers and bill payment locations appear on pages 1 through 3. Included in the emergency number listings is the toll free number for Coast Guard Environmental Emergency and the collect number of the arson control center serving Michigan residents.

The name, address and telephone numbers of gas, electric and water utilities appear on page 5.

Long distance dialing information, time zones, rate information and area code examples continue to appear on pages 6, 7, 8 and 9.

Questions concerning the directory or any other phase of telephone service should be directed to the General Telephone service office, Kowalski said.

Free Blood Pressure Clinics Producing Results

Of the one hundred and forty seven citizens that have so far visited the first three blood pressure monitoring clinics being held every second and fourth Monday of the month from 3:30 to 7:30 p.m. in the lobby at Mercy Hospital, seventeen discovered they had elevated blood pressures.

That means seventeen of our Good Neighbors have been alerted to this silent killer, and, without doubt, will visit their family Physician for further evaluation of their blood pressure.
